

**Sleeved Flags**

- + In ground sleeve with integrated cap
- + Flexible rubber spigot for "spring loaded" flag
- + PVC flag upright to 1500 mm
- + 500 x 460 mm high visibility pennant

**Freestanding Flags**

- + Stainless steel laser cut base
- + Cut out on base so there is no intrusion on the field
- + Low profile base to minimise trip point
- + Knock over resistance on impact
- + 500 x 460 mm high visibility pennant

RMA supplies two flag options, a freestanding model for retrofitting on synthetic fields, and a sleeved version for in ground use without the intrusion of any base.

Both feature high visibility pennants and spring loaded bases.
