

The Stadia Player Shelter is a durable, FIH-approved enclosure constructed from a robust 60 × 30 mm aluminium profile with a grey powder-coated finish. Its polycarbonate top, back, and sides offer excellent all-weather protection, while a curved top bar enhances safety by preventing head injuries and concealing fasteners. Designed for comfort, it **features ergonomic VIP seating and is available in multiple capacities, including options for 4, 6, 8, or 10 players.** Adjustable-height feet ensure optimal stability on any surface, making it reliable in a wide range of field conditions.
