

- + The Aluline goalpost range for Rugby Union and League is a modular design and suited for a wide range of competition levels.
- + Made from a custom aluminium extrusion, these goals are available in nominal heights of 6, 9 and 11 m, and with crossbar adjustment to suit League (5.5 m) or Union (5.6 m) as required supplied in the box so you can choose when you install what is best suited for you.
- + All systems come with internal base spigots for additional strength and durability, and can be used with optional sleeves or hinged base footings.

Product sizes
