

The Portable Senior Football Goal FIFAMG72 is a high-performance senior goal designed for durability, stability, and ease of handling across professional and community football environments. Weighing 93.5 kg and manufactured using a 120 x 100 mm custom aluminium extrusion, this goal offers exceptional structural strength while maintaining a low overall weight.

Key Features

- + 120 x 100 mm custom aluminium extrusion
- + Durable powder-coated finish
- + Fixed frame design for enhanced rigidity
- + Compatible with counterweights or ground anchors
- + Low mass construction for easy handling

*Requires a FIFA-N1 net to complete the setup
