

Choose from a wide range of indoor and outdoor LED screens with technical characteristics that are adapted to suit requirements.

These modular screens are light and easy to install and can have the size and resolution tailored to suit each individual application. With indoor and outdoor models available, we can customise a configuration for any environment.

Compatible with the world-leading Scorepad controllers and Videosport software, these screens allow for world-class scoring for over 40 different sports, but can also be used to run graphics, presentations, videos, etc., as needed
