

- + Suitable for both shot put and hammer throwing
- + World Athletics (WA) Certified
- + Heavy-duty non-rust aluminium construction
- + Can be pre-bolted to the concrete slab for added security
- + Stainless steel fasteners included
- + Supplied in reinforced segments for easier freight and installation

A heavy-duty, non-rusting aluminium World Athletics Certified Hammer and Shot Put ring with a 2135 mm diameter to be concreted into the ground. This ring is supplied in reinforced segments for ease of freight and to ensure conformity once installed. Stainless steel fittings are supplied to hold the ring together, and it can be pre-bolted to the slab to ensure maximum security before the ring is filled

Other options available on request.
