The RMA Sport Pro Jam Basketball system – BB200 is a heavy-duty, height-adjustable basketball system designed to deliver a professional playing experience at home and on private courts. Manufactured by a FIBA-certified manufacturer, the system benefits from the quality and compliance standards associated with professional basketball equipment.

Australian engineer-certified system, the Pro Jam Basketball system combines exceptional strength, durability, and versatility for players of all ages. With full height adjustment from 1550mm to 3050mm, the system can be configured to suit different players and playing requirements, making it ideal for family use, training, and recreational basketball.
